

Who is the Regal Group?

The Regal Group is a networking and lead exchange group of dedicated business professionals focused on promoting business opportunities among members by sharing leads and knowledge in all aspects of the real estate industry in Arizona. The group was established in 1979 and is a 501(c)3 non profit organization. Some of the original founding members of the group are still members today!

The group is made up of one member from classifications within the real estate industry, such as, commercial lender, real estate broker (commercial and residential), and contractor. This structure ensures that each REGAL member benefits from the confidential networking that is key to the group's success.
